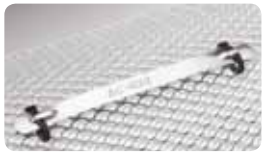
Industrial Embosser

Metal Embossing Tool

Rhino™ M1011



Innovation that began over 40 years ago and continues today.

The Rhino™ M1011 embosses 12 mm stainless steel and aluminum labels – with or without adhesive – that resist corrosion due to extreme weather, temperature, chemical, and UV exposure. This tough, durable embosser features an easy-to-use label cutting handle (cuts rounded edges), hole and cable tie punches, a trailing edge measuring gauge, and much more.

12 mm

DYMO® | Rhino™ M1011 features:

1. **Uses 12 mm** stainless steel & aluminum labels
2. **Built-in hole punch** for creating hanging, screw-on or nail-on labels
3. **Built-in cable tie slot punch** for cable marking
4. **Built-in measuring gauge –** accurately set length of leading and trailing label edge
5. **Easy-to-use cutting handle** makes cutting stainless steel labels effortless – Cuts slightly rounded edges
6. **Print mirror script labels** with included reverse image character wheel
